

On behalf of Knowlton Elementary, I would like to take this opportunity to recognize News 4/WOAI for their outstanding community involvement.

We have partnered with News 4/WOAI for over six years. In that time they have made a substantial difference in the lives of our students by serving as mentors and participating in our first ever, On-line Mentoring Program. In addition, local celebrities participated in a motivational rally to encourage our students to do well and stay in school. Over the years, News 4/WOAI furthered their support and reached out to needy children and helped with school supplies, Christmas toys and complimentary circus tickets. They hosted station tours, and allowed our students to take part on the Living Show. Their involvement created opportunities for our children they otherwise would never have experienced.

News 4/WOAI has outstanding news coverage and is committed to building a better community. More importantly, their community involvement has enhanced the quality of education of our children. We applauded their ongoing commitment and dedication to serving our children and our community.

Sincerely,

Cheryl J. Menn  
Community Liaison
